

Winston's Product & Mass Torts Summit Series 2024

MAY 9, 2024

MASS TORT MANAGEMENT TACTICS: PRACTICAL ADVICE FOR PRODUCT LIABILITY IN-HOUSE COUNSEL

Winston & Strawn is pleased to kick off our Product & Mass Tort Summit—a series of panels to be presented in key U.S. markets. The first one-hour CLE panel in the series will bring together Winston partners along with in-house counsel Bill Childs (Solventum) and David Mendelson (Abbott Laboratories) to dig into practical and actionable considerations for corporate counsel in managing product liability and mass tort cases.

This panel will explore:

- Solutions to recurrent challenges posed when handling large-scale matters
- Responses to mass tort advertising and litigation funding
- Best practices in managing multi-law firm—including virtual firm—representations

This event will be held in our Chicago office followed by a networking reception. The panel will also be streamed live virtually.
